DETAILED ACTION

The request filed on 09/08/05 for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/600,890 is acceptable and a RCE has been established. An action on the RCE follows.

Allowable Subject Matter

1. Claims 1-3,5-10,12,14-17,19,21-27, and 29-36 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a multiplayer printed circuit board comprising conductor circuit layers, interlamine insulative resin layers, through holes each having an inner wall, and some other claimed elements, for example, Uno et al. (US. Patent 5,827,604) discloses a multiplayer printed circuit board comprising conductor layers (3) each having a thickness, and interlamine insulative resin layers (4) each having a through hole (7 or 11) including an inner wall, the inner wall filled up with a plating layer. Frankeny et al. (US Patent 5,509,200) discloses a multiplayer printed circuit board as shown in figure 9 comprising dendrites (21) filled in inner walls of through holes (13). However, they do not disclose or render obvious in combination of the through holes, each having the inner wall filled up with the plating layer having a substantially flat surface to form a via hole, and the surface of the plating layer that extends out of the through hole and lies in a substantially same level as the surface of the conductor circuit layer (as recited in claim 1), and depressions are formed on a central surface portion of

the plating layer extending out of the through hole (as recited in claims 9, 17, and 25).

Also, there is no suggestion to modify these limitations as claimed as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T Dinh whose telephone number is 571-272-1929. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kammie Cuneo can be reached on 571-272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
